

Khaled Ehmaide

Full Stack .NET Developer

Amman, Jordan | +962-799423449 | khaledehmaide3@gmail.com | linkedin.com/in/khaled-ehmaide-4b5b3b247

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 3+ years of experience building, deploying, and maintaining web applications with C#, ASP.NET Core MVC, and SQL Server. Currently developing .NET web applications and automating operational workflows for the RAN Operations department at Umniah, after three years delivering government-sector systems end to end: requirements, workflow automation with ASP Runner and Elsa Workflow, SSRS reporting, API integrations, deployment, and client support.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, .NET Core MVC, REST / API integrations, PHP
Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap
Databases & Reporting: SQL Server, MySQL, SQL, SSRS / Report Builder
Workflow & Automation: ASP Runner, Elsa Workflow, business process automation
Deployment & Support: Website administration, deployment, maintenance, troubleshooting
Familiar with: Microsoft Dynamics 365 Finance & Operations, Power Apps with CRM

PROFESSIONAL EXPERIENCE

RAN Operations & Automation Engineer (Full Stack .NET Developer) | Umniah Aug 2026 - Present

RAN Operations Department | Amman, Jordan

- Design, develop, and maintain .NET Core MVC web applications that digitize and automate day-to-day RAN operations processes.
- Deliver full-stack features end to end: C# business logic, SQL Server data layer, and responsive user interfaces (HTML, CSS, JavaScript, jQuery, Bootstrap).
- Work directly with RAN operations teams to turn operational needs into working software and reduce manual, repetitive work.
- Deploy, administer, and support internal web applications, troubleshooting and resolving issues in production.

Software Developer | IT Solutions Now Jul 2023 - Jul 2026

Amman, Jordan

- Designed, developed, and deployed .NET Core MVC web applications for government-sector clients, from requirements through maintenance.
- Automated business workflows with ASP Runner and Elsa Workflow, enabling rapid delivery of internal systems.
- Built and managed business reports in SSRS (Report Builder) to support data-driven decision making.
- Integrated applications with external systems through APIs.
- Administered MVC-based websites and provided client support, troubleshooting and resolving technical issues.

PROJECTS

Construction Management Information System / Design Review System IT Solutions Now

Client: Ministry of Public Works and Housing | ASP Runner, API Integrations, MVC, Workflow Automation, Reporting

- Acted as the primary point of contact with the client throughout the project lifecycle, and delivered the end-to-end project requirements.
- Designed and configured automated workflows to streamline the ministry's design review business processes.
- Developed the financial module of the design review process, ensuring accurate cost tracking and integration with project requirements.
- Created dynamic reports to support data-driven decision making.

Archiving System for the Language Center (Graduation Project) 2023

University of Jordan | PHP, MySQL, Bootstrap

- Built an archiving and management system for the documents of non-Arabic-native students; graded "Excellent".

EDUCATION & TRAINING

B.Sc. in Computer Science | University of Jordan 2019 - Jun 2023

Amman, Jordan | GPA: 2.75/4.00 - Good

Training

- ASP.NET Core MVC Development: building, deploying, and managing MVC-based web applications.
- Modern AI: tokenization, agents, RAG, vector databases, and deploying scalable AI apps.
- Microsoft Dynamics 365 Finance & Operations.
